Hospital Meaningful Use Measures 2011

Measurement Period 8/1/2010 To 10/31/2010

Type	Measure	Description	Numerator	Denominator	Performance	Goal
Core	Calculate and Transmit CMS Quality Measures	For 2011, provide aggregate numerator, denominator, and exclusions through attestation as discussed in section II(A)(3) of this final rule For 2012, electronically submit the clinical quality measures as discussed in section II(A)(3) of this final rule			Functionality implemented	Functionality implemented
Core	Clinical Decision Support	Implement one clinical decision support rule			Functionality implemented	Functionality implemented
Core	Clinical Summaries	Clinical summaries provided to patients for more than 50% of all office visits within 3 business days	41,433	79,514	52 %	50 %
Core	CPOE	More than 30% of unique patients with at least one medication in their medication list seen by the EP or admitted to the eligible hospital's or CAH's inpatient or emergency department (POS 21 or 23) have at least one medication order entered using CPOE	10,237	10,887	94 %	30 %
Core	Demographics	More than 50% of all unique patients seen by the EP or admitted to the eligible hospital's or CAH's inpatient or emergency department (POS 21 or 23) have demographics recorded as structured data	79,691	79,691	100 %	50 %
Core	Drug-drug and drug allergy interaction checks	Implement drug-drug and drug-allergy interaction checks			Functionality implemented	Functionality implemented
Core	Electronic Copy of Discharge Instructions	> 50% of all patients who are discharged from an eligible hospital or CAH's inpt department or ED and who request an electronic copy of their discharge instructions are provided it	10,237	10,887	94 %	50 %

Core	Electronic Copy of Health Information	More than 50% of all patients of the EP or the inpatient or emergency departments of the eligible hospital or CAH (POS 21 or 23) who request an electronic copy of their health information are provided it within 3 business days	725	897	81 %	50 %
Core	ePrescribing	More than 40% of all permissible prescriptions written by the EP are transmitted electronically using certified EHR technology	109,563	158,556	69 %	40 %
Core	Exchange Key Clinical Information	Perform at least one test			Performed test	Performed test
Core	Medication Allergy List	More than 80% of all unique patients seen by the EP or admitted to the eligible hospital's or CAH's inpatient or emergency department (POS 21 or 23) have at least one entry (or an indication that the patient has no known medication allergies) recorded as structured data	56,575	79,691	71 %	80 %
Core	Medication Lists	More than 80% of all unique patients seen by the EP or admitted to the eligible hospital's or CAH's inpatient or emergency department (POS 21 or 23) have at least one entry (or an indication that the patient is not currently prescribed any medication) recorded as structured data	75,706	79,691	95 %	80 %
Core	Privacy / Security	Conduct or review a security risk analysis per 45 CFR 164.308 (a)(1) and implement security updates as necessary and correct identified security deficiencies as part of its risk management process			Conducted review and addressed findings	Conducted review and addressed findings
Core	Problem Lists	More than 80% of all unique patients seen by the EP or admitted to the eligible hospital's or CAH's inpatient or emergency department (POS 21 or 23) have at least one entry or an indication that no problems are known for the patient recorded as structured data	59,282	79,691	74 %	80 %
Core	Smoking Status	More than 50% of all unique patients 13 years old or older	38,603	79,691	48 %	50 %

		seen by the EP or admitted to the eligible hospital's or CAH's inpatient or emergency department (POS 21 or 23) have smoking status recorded				
Core	Vital Signs	For more than 50% of all unique patients age 2 and over seen by the EP or admitted to eligible hospital's or CAH's inpatient or emergency department (POS 21 or 23), height, weight and blood pressure are recorded as structured data	55,228	79,691	69 %	50 %
Menu	Advance Directives	More than 50% of all unique patients 65 years old or older admitted to the eligible hospital's or CAH's inpatient department (POS 21) have an indication of an advance directive status recorded	5,010	10,887	46 %	50 %
Menu	Immunization Registries	Performed at least one test of certified EHR technology's capacity to submit electronic data to immunization registries and follow up submission if the test is successful (unless none of the immunization registries to which the EP, eligible hospital or CAH submits such information have the capacity to receive the information electronically)			Performed test	Performed test
Menu	Implement drug-formulary checks	The EP/eligible hospital/CAH has enabled this functionality and has access to at least one internal or external drug formulary for the entire EHR reporting period			Functionality implemented	Functionality implemented
Menu	Lab Results into EHR	More than 40% of all clinical lab tests results ordered by the EP or by an authorized provider of the eligible hospital or CAH for patients admitted to its inpatient or emergency department (POS 21 or 23) during the EHR reporting period whose results are either in a positive/negative or numerical format are incorporated in certified EHR technology as structured data	3,313,539	3,313,539	100 %	40 %
Menu	Medication Reconciliation	The EP, eligible hospital or CAH performs medication reconciliation for more than 50% of transitions of care in which the patient is transitioned into the care of the	164,841	174,152	95 %	50 %

		EP or admitted to the eligible hospital's or CAH's inpatient or emergency department (POS 21 or 23)				
Menu	Patient List	Generate at least one report listing patients of the EP, eligible hospital or CAH with a specific condition			Functionality implemented	Functionality implemented
Menu	Patient Reminders	More than 20% of all unique patients 65 years or older or 5 years old or younger were sent an appropriate reminder during the EHR reporting period	16,009	79,691	20 %	20 %
Menu	Patient Specific Education	More than 10% of all unique patients seen by the EP or admitted to the eligible hospital's or CAH's inpatient or emergency department (POS 21 or 23) are provided patient-specific education resources	12,345	79,691	15 %	10 %
Menu	Submit Lab Results to Public Health Agencies	Performed at least one test of certified EHR technology's capacity to provide electronic submission of reportable lab results to public health agencies and follow-up submission if the test is successful (unless none of the public health agencies to which eligible hospital or CAH submits such information have the capacity to receive the information electronically)			Performed test	Performed test
Menu	Summary of Care	The EP, eligible hospital or CAH who transitions or refers their patient to another setting of care or provider of care provides a summary of care record for more than 50% of transitions of care and referrals	10,887	10,887	100 %	50 %
Menu	Syndromic Surveillance	Performed at least one test of certified EHR technology's capacity to provide electronic syndromic surveillance data to public health agencies and follow-up submission if the test is successful (unless none of the public health agencies to which an EP, eligible hospital or CAH submits such information have the capacity to receive the information electronically)			Performed test	Performed test
Menu	Timely	More than 10% of all unique	14,012	79,514	18 %	10 %

	Electronic Access to Health Information	patients seen by the EP are provided timely (available to the patient within four business days of being updated in the certified EHR technology) electronic access to their health information subject to the EP's discretion to withhold certain information
